## Women's Greatest Mistakes Are Often Made About Milk

They cling to raw milk—thin, impure and germ-laden—because they suppose that Van Camp's Milk is peculiar. It's simply pure milk.

Times-Dispatch Bureau, 109 North Sycamore Street, Petersburg, Va., July 13.

Mrs. Johnson, of Richmond, president of the Woman's Temperance League of America, organized two local branches of the league in this city on Tuesday afternoon and evening, each with a good, active membership. The West End League was organized at the residence of Mrs. W. M. Rucker, on West Washington Street, and the following officers were elected: President, Mrs. C. O. Edwards; Vice-President, Mrs. G. C. Ziegler; Corresponding Secretary, Miss Eva Jordan; Treasurer, Miss Mary Baxter. The Petersburg branch was organized at the residence of Mrs. H. E. Murot, on Washington Street, and the following officers elected: President, Miss Pearl Young; Vice-President, Mrs. H. F. Murot; Corresponding Secretary, Mrs. W. C. Taylor; Treasurer, Miss Annie Belle Seward.

At 8 o'clock this evening in the parlors of the residence of the Rev. J. T. O'Farrell, the officiating minister, Miss Myrtle Lee Hawkins, of Ettrick, and W. L. Davis, of this city, were married.

Mr. and Mrs. Joseph W. Seward have gone to Saratoga, N. Y., to spend some time.

Hugh Campbell, Sr., will leave for Scotland next week to visit and spend the summer with relatives.

The Petersburg Elks are greatly gratified over the success of the fight to prevent the removal of the Elks' National Home from Bedford City.

Mr. and Mrs. W. E. Lun are guests at the Brunswick Inn, Waynesboro, where they will spend a month or more.

William Fowler and Henry Harris, negroes, arrested in this city for stealing chickens in Chesterfield, were turned over to the authorities of that county for trial.

Some of the material for the erection of the signal phone police patrol system, to be installed in this city, has been shipped from Milwaukee. It is expected that work will soon be commenced.

Application will be made to-night to the Council, Committee on Water for permission to make a temporary connection to supply the suburb known as Woodland Heights with city water until adequate arrangements can be concluded by the people of that section for their own supply.

Chairman J. H. said yesterday that he saw no reason why the city should not consent to sell the water at the rates fixed by general ordinance for non-resident water takers, a sliding meter scale about one-fourth higher than is charged in the city limits, provided the pumping plant in South Richmond maintains the extra strain—a point into which the committee will carefully inquire to-night.

Anticipating a favorable answer, the suburb of Woodland Heights, which lies on the river between South Richmond and Forest Hill, and adjoins the city limits of Washington Ward, has made preparations for the connection by laying a main to Semmes Street. No connection has as yet been made, however. It is stated that the application will be only temporary, pending the completion of additional water works in Woodland Heights.

Tank Nearly Empty.

For several weeks past the dry season has affected the artesian wells which supply Woodland Heights. Engineer Mercer, who is working hard to remedy conditions, says that the tank has never been entirely dry, but there have been times when it was low and both for fire protection and health conditions, a constant supply of water at all times is desired. Machinery has arrived and been placed in the past few days for pumping from a third well, and conditions are better now than they were a week ago, but the engineer in charge desires to take no chances.

While a act of the City Council would be necessary to grant the desired permission, there is precedent in the case of the town of Barton Heights for the Water Committee to act in an emergency, and have its action later ratified by the Council.

The last work done by the balanced fund for the building of the international headquarters at Boston in honor of President Clark. The next convention will be held in Los Angeles in 1912.

### Macaroon Ice Cream

With a spoon beat the yolks of three eggs, a good half-cup of sugar and a pinch of salt together thoroughly. Mix three-fourths cup of Van Camp's Milk with a cup and a half of water. Let boil and pour into the egg mixture. Cook in a double boiler and stir constantly until done, or until it has a buttery look. Strain and add one and a half cans of Van Camp's Milk and same quantity of water, with either two tablespoons of vanilla or four tablespoons of Madeira. When half frozen, remove the dasher and stir in half a pound of pounded macaroons.

Write for our book of 131 recipes, including all sorts of ice cream.

Van Camp Packing Co., Indianapolis, Ind.

### Just Rich, Whole Milk

Van Camp's Milk comes from high-bred Holstein cows. Our dairies are located in seven states—in America's best dairying sections. They are model dairies, conducted under rigid inspection.

Close to each dairy we have built an aseptic evaporating plant. We have copied the best Swiss models. There the milk fresh from the cows is put into a copper vacuum. On account of the vacuum, a moderate heat evaporates the

### Absolutely Sterile

When the evaporated milk is sealed up in cans each can is pasteurized. Not a germ of any kind can exist in it.

You can buy, if you wish, a month's supply at a time. Keep it always on hand—like a cow in the pantry. Have rich milk or cream whenever you want it, and all you want. It always remains exactly the same as the day it went out from our dairy.

### Like Using Cream

Van Camp's Milk as it comes to you is as thick as thick cream. So thick that you add one part water for coffee, cereals or ice cream. It is 28 per cent solids, 8 per cent butter fat.

When you use it in cooking, or for making ice cream, it gives a richness and flavor immeasurably better than one gets for milkman's milk.

The reason is this: Milkman's milk separates. The butter fat rises and the solids fall. When that milk gets to the cooking it is rarely more than a half milk.

Van Camp's is the whole milk. It contains all the butter fat, all the solids, which belong to

the richest milk. That is why milk dishes made with it have a surprising richness.

### Six Cents Per Quart

When Van Camp's is reduced to the usual milk's richness the cost will figure about six cents per quart.

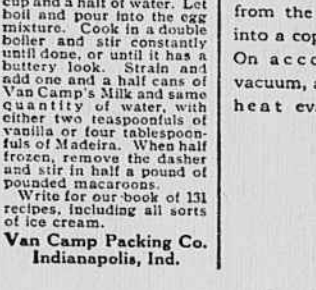

The main saving lies in getting rid of the milkman's daily delivery. That always costs more than the milk.

Then you save all waste. You open a can of Van Camp's when you want it, and it keeps till you use it up. You never have too little or too much. In the average home the use of Van Camp's will cut milk bills in two.

### Like Swiss Milk

In perfecting this milk we have brought to our dairies the ablest Swiss and Dutch experts. In the past seven years we have spent \$100,000 in bringing this milk up to the highest Swiss standards. The result is the finest milk ever produced in America. Yet it costs no more than common evaporated milk.

The 16-oz. can—a full pint of Van Camp's—costs 10 cents. The 6-oz. can costs 5 cents. Your grocer has it, shipped from our nearest dairy. Ask him today to send you some. You will then find out how much it means to have such a milk as this.

## Van Camp's Milk

Evaporated—Sterilized—Unsweetened

### Wedding In Matoaca

A wedding last evening in the Believers' Hall, in Matoaca, Miss Carrie Mae Brockwell, daughter of Mr. and Mrs. Edward L. Brockwell, of that place, was married to Benjamin Bo-Ville Campbell, of this city. Evangelist William Beveridge, of Harrisburg, Pa., performed the ceremony. The presence of a large assemblage of friends. The hall was very tastefully decorated with palms and flowers, and the wedding a pretty event. The bride and bridegroom entered together, and were attended respectively, by Miss Margarette Sustain of Philadelphia, as maid of honor, and Hugh Campbell, Jr., brother of the bridegroom, as best man. The bride was attired in white crepe de chine over taffeta silk, with crystal trimmings, and carried white carnations. The bridesmaid wore pink chiffon over mesquite, and carried pink carnations. Alex. R. Titmus and James Andrews were the ushers. A reception at the residence of the bride's parents followed, at which many guests were present, among them a number from a distance. The bride is one of the most attractive young women of her section. The bridegroom is a sculptor, and is the son of Hugh Campbell, Sr., of the firm of Burns & Campbell, of this city. Mr. and Mrs. Campbell left to-day to spend a few days with relatives in Philadelphia, after which they will sail for the southwest, where they will spend their honeymoon in Scotland and England.

### Death of Mrs. Marable

Mrs. Mary T. Marable died this morning in her home, in High Street. She was in the eighty-fourth year of her age, and passed quietly away after an illness of one week. Mrs. Marable was the widow of Dr. Thomas E. Marable, of this city, and was the daughter of Dr. Morrison of Brunswick county, a famous physician in his day. Her family was very widely connected throughout this section. She is survived by two sisters, residing in this

### Work at the Fair Grounds

Work on the fair grounds at West End Park is progressing finely, and things are getting in good shape. The agricultural, cattle and poultry buildings are under roof, and nearly completed. The race track, a regulation half-mile course, has been widened and properly graded. It is fifty feet wide on the stretch and forty-two feet wide at the turns. The grandstand, a building 200 feet long, and capable of seating 2,500 persons, will be located on the southeast side of the track, and will command a view of the entire track. A great many fine horses have been entered for the races, and many exhibition spaces have already been spoken for.

### Cost of Pumping Water

Another matter to be discussed in the Committee on Water to-night is the alleged excessive cost of maintenance of the Pump House. A report to the Committee on Electricity shows that the New Pump House costs for salaries and expenses \$25,000 a year, and has done so for many years past, and the electric plant is furnishing much of the power for pumping water. The Electricity Committee wants to know why the cost of maintaining the Pump House is not curtailed. If the full force of men is to be kept to operate the water pumps, while those pumps stand idle, the Committee on Electricity has no point in buying coal to operate the electric plant to generate the power for water pumping, thus doubling the cost to the tax-payers. Engineer Trafford has stated that were all the pumping done by electric power and unnecessary men discharged, the annual cost of pumping water should be \$5,000, not \$25,000.

The next convention will be held in Los Angeles in 1912.

### MARRIES FORMER WIFE SHORTLY BEFORE DEATH

[Special to The Times-Dispatch.] Hampton, Va., July 13.—Daniel Carey, seventy-one years old, who conducted a jewelry business here for twenty years, died to-day. He was divorced from his wife five years ago, but six weeks ago when his physicians advised him that his end was close at hand, Mr. Carey wired his former wife to come here from Pennsylvania, and again married her.

### Two Brothers Meet AFTER MANY YEARS

[Special to The Times-Dispatch.] Fairmount, N. J., July 13.—Two brothers, who were among the few rescued from the wreck of the New York City, met here where Ashbury Park now stands, and who fought in opposing armies during the Civil War, met for the first time in forty-six years here to-day.

They are Theodore Glazer, of Petersburg, Va., and Charles Glazer, of here. Another brother, John C. Glazer, of North Branch, took part in the reunion. A younger man, he listened to his brothers as they recounted their experiences before and after their separation. Not since a short time after the close of the war, when Theodore regained his liberty as a prisoner of the Northern army forces and fled, but Charles here, had the two brothers met, they had kept up correspondence that tended to make to-day's reunion possible. The manner in which the brothers parted company was in wide contrast to the experience they had in remaining together, in face of death, when they first came to this country. The separation of the pair followed weeks of torture and feasting. Theodore bade his brother good-by, and journeyed to the South to make his home.

The arrival in this country was temporarily balked by the shipwreck, and by a remarkable play of fate the brothers were saved from drowning.

### Will Make Trip ON HISTORIC ROAD

Washington, D. C., July 13.—When President Taft goes to Manassas, Va., on July 21, to speak at the joint reunion of the blue and gray armies of the battlefield of Bull Run he will travel over the same old turnpike that thousands of Union soldiers used fifty years ago.

The President will not make use of his private car on this trip, but will motor down from the capital with Secretary Hilles and Major A. W. Butt. Much of the ride will be over the road used by General McDowell's soldiers, when the tide of battle turned against them and they fled back toward Washington.

Manassas is about twenty-five miles southwest of Washington, and the President will be able to make the trip, deliver his speech and return to Washington probably by nightfall.

## Buffalo Lithia Springs Hotel

Open June 15th to September 30th Only.

The buildings are on the cottage plan and are sufficient for the comfortable accommodation of two hundred and fifty persons. No Malaria. No Mosquitoes.

Buffalo Lithia Springs are located in Mecklenburg County, Virginia, in the "Buffalo Hills," 500 feet above the level of the sea, and are reached from all directions over the Norfolk Division of the Southern Railway.

This water is prescribed in all Uric Acid Conditions, Gout, Rheumatism, Calculi of the Kidney and Bladder, Bright's Disease, Diabetes, Gastro-Intestinal Disorders, Neuralgias, etc.

### FIRST RAINFALL IN FIFTEEN WEEKS

Crops in Danville Section Greatly Benefited—Long Trip With Wheelbarrow.

[Special to The Times-Dispatch.] Danville, Va., July 13.—The rain of the summer, as far as the crops are concerned, fell here to-night. The storm started with a thunder shower about 5 o'clock in the afternoon, and for about an hour the rain came down in sheets and accompanied by some high winds. Farmers took the storm abated somewhat, and later a gentle rain fell, which promised to continue throughout the night.

The rain is the first which has done any real good in almost fifteen weeks. The crops are far behind, and the loss to the farmers in this section alone is conservatively estimated at \$100,000. Some of the tobacco crop has not been set out, and what little has been planted is not very good. Corn, however, has stood the long dry spell remarkably well.

Frank Orr, of Charlotte, N. C., left here this afternoon for New York, having pushed a wheelbarrow all the way from Atlanta, Ga. He is taking the walk from Atlanta to New York on a wager of \$500. The trotter followed the national highway from Atlanta to Winston, and then he took the railroads, and will follow the cross tie to New York. He is not going to ask for anything on the route. He sells post cards, but has no price on them, and allows people to have them at whatever they think they are worth. This is the rule in which he has to make his trip and get the wage.

The young business men composing the Y. M. C. A. camping party, which walked to Mountain Lake, returned to the city to-night, having had a most enjoyable outing. Several games of ball were played on the walk over, and athletic contests arranged. The route going lay through Callands and Rocky Mount, and the return was made via Salem and Catawba Sanatorium.

FINAL RALLIES HELD.

Annual Convention of Christian Endeavor.

Atlantic City, N. J., July 13.—The twenty-fifth annual convention of the International Christian Endeavor, after a most successful week, came to an end last night. The final scene took place in the two big auditoriums on the

### CARS CRASH INTO PASSENGER TRAIN

Engineer Severely Injured and Six Others Slightly Hurt in Wreck.

[Special to The Times-Dispatch.] Spencer, N. C., July 13.—Engineer A. J. Heilig, of Norwood, was severely injured and six passengers slightly hurt to-day at Granite Quarry, on the Yadkin Branch, of the Southern Railway, as a result of five cars, heavily loaded with stone, crashing head-on into passenger train 23, bound from Salisbury to Norwood.

The passenger train was making good time when the stone cars broke loose from a shifting engine on a steep grade and dashed with terrible force into the train on the passenger track.

The locomotive was demolished, the track torn up and the fireman saved himself by jumping. A baggage car was smashed, and the baggage-master left unhurt. The engineer was badly scalded and bruised, and carried to Salisbury hospital for treatment.

### DRUGGISTS PLAN TRIP TO BERMUDA

Association Will Hold Next Annual Meeting on Chartered Steamer—Officers Elected.

[Special to The Times-Dispatch.] Roanoke, Va., July 13.—After being in session three days, the Virginia Pharmaceutical Association adjourned to meet on a steamer to be chartered for a trip to Bermuda next year. The date will be set later. The afternoon session to-day was devoted to the election of officers.

The officers elected were as follows: President, W. E. Lyle, Esq. City. First Vice-President, C. D. Cox, Roanoke. Second Vice-President, C. D. Owens, Lynchburg. Secretary, E. L. Brandis, Richmond. Treasurer, H. S. Ely, Suffolk. Executive Committee—W. H. Lawson, South Boston, to fill a vacancy. Entertainment Committee—P. B. Taylor, Richmond.

The following names were selected to be given the Governor of the State from which one is to be selected as a member of the State Board of Pharmacy: R. C. Petrol, Newport News; Ramsey Taylor, Norfolk; J. R. Knight, Franklin; H. S. Arrington, Norfolk; W. H. Sheppe, Charlottesville.

Delegates to the American Pharmaceutical Association: T. A. Miller, Richmond; C. K. Fleet, Lynchburg; J. L. Avis, Harrisonburg.

Delegates to the National Wholesale Druggists' Association: Edgar Taylor, Richmond; T. M. Penick, Lynchburg; William Miller, Richmond. Delegates to National Association of Retail Druggists: E. C. Rimmer, Lynchburg; T. N. Curd, Richmond; Polk Miller, Richmond.

Delegates to the Maryland Pharmaceutical Association: George T. Man-kin, Falls Church; K. C. Hagan, Danville; E. L. Robery, Hoinndon.

Delegates to the North Carolina Pharmaceutical Association: Dr. N. T. Everett, Richmond; W. M. Stokes, Lynchburg; W. G. Williams, Charlotte Courthouse.

Delegates to the West Virginia Pharmaceutical Association: J. G. Kelley, Bluefield; G. A. Thompson, Christiansburg; George M. Farrow, Clifton Forge.
